The Bond Arms BullPup is the World's most revolutionary design since the inception of the modern semi-automatic handgun. Utilizing a rotating, locked breech mechanism, the BullPup generates superior speed and accuracy making it the smallest, most powerful, 9mm of its size. Due to a unique, reverse feed design, it is equipped with a 3.35-inch barrel and has an overall length of 5.1 inches. With a comfortable weight of 18.5 ounces, DAO(double action only) trigger, and minimal overall profile, the BullPup is an ideal concealed carry handgun. Don't just take our word for it, here is what others are saying about it.

"I'm impressed with this little gun (Bond Arms Bullpup). It will be a nice deep cover, easy to conceal and accurate to shoot pistol."

Ken Campbell - COO of Gun Site Academy

"This gun is exceptionally compact, good looking, accurate, fun to shoot, and utterly reliable..."

B. Gil Horman, American Rifleman

"...if you are ready for something outside the ordinary, this pistol is an engineering marvel."

Duane A. Daiker, Shooting Illustrated

"I now have two Bond Arms BullPups. They are truly a joy to own and shoot. It is easy to conceal in my pocket, fun to shoot with little kick for a 9mm, accurate and exceptionally easy to rack."

John, Valued Customer

"I was floored by the impeccable craftsmanship of every detail. What a superb little pistol!"

"(Bond Arms) double barrel handguns are extremely high quality. They're really precision fit and they're really really really well made. They're like tanks, you can drive nails with them, you can't break those things. They are of the highest quality possible."

Ed Head - Instructor at Gun Site Academy

"Bond Arms, legends in the shooting industry, and these super derringers that they've made over the years."

Ken Campbell - COO of Gun Site Academy

"Bond Arms - Exceptionally High Quality Derringers"

American Handgunner

"Bond Arms makes the World's Best Derringer"

GunBlast.com

"The Bond Arms derringers exude quality. Some would call them the "Cadillac" of derringers. I would not. I have owned Cadillacs. Very good automobiles, but they are not up to the quality standards of Bond Arms."

GunBlast.com

"Like all the Bond derringers, the Ranger is a good-looking gun that exudes quality!"
