PATENTED INTERCHANGEABLE BARREL SYSTEM

No Gunsmithing Required

CAD DESIGNED ■ CNC MACHINED ■ HAND BUILT

Computer Numerically Controlled (CNC) Machining can maintain tolerances of .001 of an inch (a human hair's diameter is approximately .003). This precision machining allows for perfect interchange of barrels without custom-fitting. All Bond Arms pistols will accept 14 different barrels which will allow 24 different cartridges. Barrels chambered in .410 shot shell / .45 Colt will shoot bird shot, buck shot and slugs as well as the .45 Colt.

SIGHTS: Blade front and fixed rear.

SPRING LOADED EXTRACTOR: Lifts the shells up automatically.

HIGH QUALITY STAINLESS STEEL: Finest grade of stainless steel which has been heat treated for optimum performance and durability.

PATENTED REBOUNDED HAMMER: Allows hammer to rebound to a blocked position off of the firing

RETRACTING FIRING PINS: Allows for safer reloading.

CROSSBOLT SAFETY: Solid stainless steel, conveniently thumb operated.

SPECIAL GRIP DESIGN: Distributes recoil over the palm of the hand resulting in less felt recoil.

GRIP: Rosewood or black ash. Custom Grips are available.

PATENTED SPRING LOADED RAPID RELOAD LEVER: Provides for faster, easier loading/unloading, and a tighter barrel/frame fit.

INTERCHANGEABLE BARREL: System allows for the different caliber barrels to be mounted on a common frame.

COMPUTER AIDED DESIGN: Exact fit and superior mechanical performance with satin stainless finish.

TRIGGER GUARD: Aids in controllability, and is removable for the classic deringer look.

For rimless cartridges such as 9mm, .40 S&W, 10mm and .45 ACP. There is a cut out at the breech end of the barrel which allows you to remove the shells with your fingernail. Chambers are honed for smooth extraction.

Key Entry Internal Safety Locking Device (SLD). This acts as an effective child Safety Device.

ECONOMICAL: The patented locking lever (rapid reload lever) allows a fully functional interchangeable barrel system which offers a level of flexibility unmatched by any other pocket pistol! For additional barrels, no gunsmithing needed.

When red is visible on the crossbolt safety, the pistol is ready to fire.

Changing barrels requires an 1/8" Allen wrench. Barrel can be changed in seconds.
